Featured Benefits: Microban infused. Built in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew and reduces odor.

- * S blade with luster guard ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look "plastic".
- * S Blade yarn system takes durability to the next level. Its fiber wear was tested at 50,000 cycles (50,000 cycles = 20 years of wear). This Lisport test gives a visual indication on how a synthetic turf system will age over time.
- * The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.
